

Steam and Condensate Technology

The Compact Knowledge Resource on CD-ROM

Our comprehensive steam and condensate reference is now available on CD ROM. We have digitalised over 360 data sheets and more than 180 installation instructions, which means that now our complete technical documentation in German and English is stored as pdf files on a "silver disc".

This helpful CD is priced at DM 49. Optionally, the German "Wegweiser", our collection of tables, charts, and formulae for design and plant engineers, engineering consultants, project and construction engineers is available in a package deal, priced at DM 89 for both CDs.

To order please contact our sales department or the GESTRA Academy.

GESTRA is a global leader in the design and production of valves and control systems for heat and process fluid control. Being a member of the SIEBE group, we are capable of offering our customers complete and intelligent solutions engineered to function with maximum reliability.

Our products and services have many practical applications and are employed where

- steam is generated, distributed or used
- fluids flow
- energy saving is possible
- environmental protection and safety-oriented control systems are needed..
