

Our New Spector Level Electrodes

Take the Spector Bus - before you miss the train

GESTRA is **the first company of the world** that can offer an approved safety-oriented CAN-Bus system for boiler and steam plant operation. The German Technical Supervisory Association TÜV has certified the high reliability of our equipment with the type approval no.

(TÜV-WR-98-399).

We can now go ahead with our innovative new system and offer it for sale without any restrictions!

Let us **join forces** and break new ground in the field of boiler equipment and set new standards from the standpoint of safety.

GESTRA is a global leader in the design and production of valves and control systems for heat and process fluid control. Being a member of the SIEBE group, we are capable of offering our customers complete and intelligent solutions engineered to function with maximum reliability.

Our products and services have many practical applications and are employed where

- steam is generated, distributed or used
- fluids flow
- energy saving is possible
- environmental protection and safety-oriented control systems are needed..
