

Did you know that GESTRA

- has one of the world's biggest production facilities for steam and boiler equipment,
- executes 300 orders a day,
- assists you in training your staff by giving demonstrations with our mobile testing station,
- analyses and optimizes your steam and condensate systems in close cooperation with you,
- offers training courses for steam and condensate technology,
- looks back on almost 100 years of experience
- has been blazing a trail in boiler safety for more than 30 years,
- has type approvals from more than 25 inspecting authorities
- was the first company of the boiler industry in Germany to be certified according to Lloyd's Register ISO 9001 as early as 1987,
- has 185 national and international patents?

GESTRA - The Steam Experts

GESTRA is a global leader in the design and production of valves and control systems for heat and process fluid control. Being a member of the Invensys group, we are capable of offering our customers complete and intelligent solutions engineered to function with maximum reliability.

Our products and services have many practical applications and are employed where

- steam is generated, distributed or used
- fluids flow
- energy saving is possible
- environmental protection and safety-oriented control systems are needed.
