

Did you know that GESTRA

- built the first wafer-design non-return valve for sandwiching between flanges,
- is market leader in Europe for wafer-design non-return valves,
- has rounded off the DISCO non-return valve range with the economic RK 76,
- opens up new markets in the pharmaceutical industry with the new STERline steam trap,
- delivers 100 deaerators and feedwater tanks per year,
- has reached 98 % of delivery consistency for butterfly valves,
- has a market share of 70 % in Europe of valves for pressure-liquefied gas tanks,
- has been building tank car valves for more than 70 years
- offers wear-resistant leak-off valves for Δp 362 bar used in power plants which will render 20 years of trouble-free and noiseless service,
- designs leak-free valves, feedwater control valves, warm-up valves and drain valves for the biggest power plants in the world?

GESTRA - The Steam Experts

GESTRA is a global leader in the design and production of valves and control systems for heat and process fluid control. Being a member of the Invensys group, we are capable of offering our customers complete and intelligent solutions engineered to function with maximum reliability.

Our products and services have many practical applications and are employed where

- steam is generated, distributed or used
- fluids flow
- energy saving is possible
- environmental protection and safety-oriented control systems are needed.
