

Genuine GESTRA Spare Parts Kits make servicing simply a breeze

GESTRA products boast long service lives, but even above-average quality products will show signs of wear in the course of time. Should the equipment require servicing, do it simply and professionally - use only genuine GESTRA spare parts!

Backed by many years' experience we have put together spare part kits which make servicing and repair work simply a breeze.

You will find the spare part kits specified in a separate section of the new **GESTRA Price List 2000**.

And if you do not want to carry out the repair work yourself please call the GESTRA Service Center in Bremen. Our service team will be pleased to help you solve your problem.

GESTRA - The Steam Experts

Interested? Please contact Mr Holger Broda, GESTRA GmbH, Technical Service,
Tel.+49 421 3503-337 <mailto:hbroda@gestra.de>

GESTRA is a global leader in the design and production of valves and control systems for heat and process fluid control. Being a member of the Invensys group, we are capable of offering our customers complete and intelligent solutions engineered to function with maximum reliability.

Our products and services have many practical applications and are employed where

- steam is generated, distributed or used
- fluids flow
- energy saving is possible
- environmental protection and safety-oriented control systems are needed.
