

Huge Extension of Our Product Range

Globalisation at its best results in a synergy that can be very productive. GESTRA is well positioned to capitalize on this new trend: We have successfully teamed up with the Invensys company ERO to coordinate and improve our distribution networks.

ERO Electronics specializes in highly engineered electronic controllers. The ERO products complement perfectly our steam system equipment and boiler controls range.

We can now offer a largely extended range of high-quality controllers as part of our industrial electronics and automation programme according to our maxim:

GESTRA - Your one-stop shop

No matter whether you want to refurbish an existing installation or build a new one - GESTRA in cooperation with ERO will meet your requirements and provide customized solutions. Try us.

GESTRA - Your Specialist for Steam and Energy Management

GESTRA is a global leader in the design and production of valves and control systems for heat and process fluid control. Being a member of the Invensys group, we are capable of offering our customers complete and intelligent solutions engineered to function with maximum reliability.

Our products and services have many practical applications and are employed where

- steam is generated, distributed or used
- fluids flow
- energy saving is possible
- environmental protection and safety-oriented control systems are needed.
